Education

- **Full Stack Development**, GUVI Geek Network, IITM Research Park (05/2023 - 05/2024), Chennai
- **Bachelor of Engineering, Mechanical**, Jayam College of Engineering and Technology (05/2013 - 04/2017), Dharmapuri

Personal Projects

Doctor Appointment Booking Website (05/2024 - 06/2024)

- Technologies used: React.js, Node.js/Express.js, MongoDB on AWS
- Description: Designed and developed a web application for booking, modifying, and canceling doctor appointments, with secure authentication for patients and doctors. Created user-friendly interfaces, managed scheduling, profiles, and notifications, ensuring responsive design, optimized performance, and secure data handling.
- Outcomes:
 - Developed a scalable and user-focused application, improving patient engagement and doctor productivity.
 - Gained practical experience in web development, problem-solving, and building efficient applications.

Food Delivery Website (04/2024 - 05/2024)

- Technologies used: React.js, Node.js/Express.js, MongoDB on AWS & Git/GitHub
- Description: Built a responsive platform for browsing restaurants, ordering food, and managing orders. Integrated user authentication, payments, and order management for secure transactions and optimized performance, with a focus on seamless mobile experience and efficient backend processes.
- Outcomes:
 - Created a complex web application, focusing on UI design, real-time data management, and secure payments.
 - Enhanced skills in building scalable, optimized platforms, improving user experience and business efficiency.

Notes Maker Application (05/2024 - 05/2024)

- Technologies used: React.js, Node.js/Express.js, MongoDB on AWS & Git/GitHub
- Description: Developed a web application that allows users to create, organize, and manage notes easily. Features include rich text formatting, categorization, and search functionality for a streamlined and user-friendly experience.
- Outcomes:
 - Improved user productivity through easy note creation, organization, and management.
 - Enhanced accessibility to information with search and categorization features, delivering a seamless and efficient user experience.

Skills

- Front-end: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js, Redux
- Back-end: Node.js, Express.js, MongoDB, MySQL
- Tools: Git/GitHub, AWS, OAuth/JWT, API Development, Database Design, CI/CD, Error Handling, Performance Optimization
- Soft Skills: Collaboration, Adaptability, Continuous Learning

Certifications

- **MERN Stack Development**, GUVI Geek Network, IIT Madras (04/2023 - 04/2024)
- **JavaScript Algorithms and Data Structures**, freeCodeCamp (09/2023 - 10/2023)

Languages

- **Tamil**: Native or Bilingual Proficiency
- **English**: Full Professional Proficiency
- **Hindi**: Limited Working Proficiency

Interests

- Reading Books
- Tech enthusiast
